SOUTHLAKE, Texas – November 5, 2026 – Sabre Corporation ("Sabre" or the "Company") (NASDAQ: SABR) today announced financial results for the quarter ended September 30, 2026.

“Sabre delivered strong third-quarter results, reflecting continued execution of our strategy and growing momentum across our business. We achieved our fifth consecutive quarter of double-digit year-on-year growth in Normalized Adjusted EBITDA and, for the second consecutive quarter, we are raising our full-year 2026 guidance for Pro Forma Adjusted EBITDA and Free Cash Flow,” said Kurt Ekert, president and CEO.

Ekert continued, “We are seeing expanded profitability as we drive consistent revenue growth, coupled with disciplined cost management. Looking ahead, we are confident in our ability to achieve our increased full-year 2026 guidance and expect to generate positive free cash flow in 2027, providing greater financial flexibility to capitalize on the opportunities ahead and drive long-term shareholder value.”

Q3 2026 Financial Summary

Third quarter revenue totaled $738 million, compared to $715 million in the third quarter of 2025.

- Marketplace revenue increased by $19 million, or 3%, to $594 million, driven by a $14 million increase in transaction-based revenue primarily due to favorable rate impacts and a $5 million increase in product-based revenue.
    - Total Marketplace bookings, net of cancellations, were 95 million, roughly flat compared to the third quarter of 2025.
    - Average booking fee totaled $6.24, an increase of approximately 3% from third quarter 2025.
- Airline Technology revenue increased by $5 million, or 3%, to $144 million, driven primarily by a $2 million increase attributable to volume growth and a $3 million increase in other revenue.

Operating income totaled $109 million versus $94 million in the third quarter of 2025. The increase in operating income was driven by the increase in revenue described above and a decrease in indirect taxes, partially offset by an increase in incentives, increased technology costs associated with higher transaction volumes, and higher labor and professional services costs driven by a reduction in variable based compensation in the prior year.

Loss from continuing operations totaled $26 million, versus income of $48 million in the third quarter of 2025. Loss from continuing operations in the third quarter of 2026 is attributed to a

decrease in the benefit for income taxes, an increase in other, net and an increase in interest expense, net, partially offset by the increase in operating income described above.

Loss attributable to common stockholders totaled $25 million, versus income of $849 million in the third quarter of 2025. The increase in loss attributable to common stockholders in the third quarter of 2026 was primarily driven by a decrease in income from discontinued operations, net of tax, related to the sale of Hospitality Solutions in the prior year and the loss from continuing operations described above.

Normalized Adjusted EBITDA(1) was $170 million, up 13% year-on-year, an improvement versus Normalized Adjusted EBITDA(1) of $150 million in the third quarter of 2025. The improvement in Normalized Adjusted EBITDA(1) was driven by the items impacting revenue described above, partially offset by an increased incentive expense.

With regard to Sabre's third quarter 2026 cash flows (versus prior year):

- Cash used in operating activities totaled $25 million (vs. $34 million provided by)
- Cash used in investing activities totaled $22 million (vs. $20 million)
- Cash provided by financing activities totaled $37 million (vs. $839 million used in)
- Capitalized expenditures totaled $23 million (vs. $20 million)

Free Cash Flow(1) was negative $48 million, compared to Free Cash Flow(1) of $13 million and Pro Forma Free Cash Flow(1) of $13 million in the third quarter of 2025.

Third quarter cash provided by operating activities and Free Cash Flow includes approximately $15 million in refinancing fees and $40 million in accrued interest payments associated with the debt refinancing completed during the third quarter of 2026. Excluding these payments, third-quarter Free Cash Flow would have been positive.

Non-GAAP Financial Measures

We have included both financial measures prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) as well as certain supplemental non-GAAP financial measures, including Adjusted Net Income (Loss) from continuing operations (“Adjusted Net Income (Loss)”), Adjusted EBITDA, Normalized Adjusted EBITDA, Pro Forma Adjusted EBITDA, Adjusted EPS, Free Cash Flow and ratios derived from these measures. The non-GAAP financial measures are presented in addition to, and not as a substitute for, financial results prepared in accordance with GAAP. GAAP financial measures are presented with equal or greater prominence wherever non-GAAP financial measures are discussed.

Definitions

Adjusted Net Income (Loss) is defined as (loss) income from continuing operations adjusted to exclude acquisition-related amortization; restructuring and other costs; loss on extinguishment of debt; other, net; disposition-related costs; litigation costs, net; indirect tax matters; stock-based compensation; and the related tax impacts of these adjustments.

Adjusted EBITDA is defined as (loss) income from continuing operations adjusted to exclude depreciation and amortization of property and equipment; amortization of capitalized implementation costs; acquisition-related amortization; restructuring and other costs; interest expense, net; other, net; loss on extinguishment of debt; disposition-related costs; litigation costs, net; indirect tax matters; stock-based compensation; and the provision for income taxes.

Adjusted EBITDA Margin is defined as Adjusted EBITDA divided by revenue

Normalized Adjusted EBITDA and Pro Forma Adjusted EBITDA are defined as Adjusted EBITDA adjusted for the estimated costs historically allocated to Hospitality Solutions.

Normalized Adjusted EBITDA Margin is defined as Normalized Adjusted EBITDA divided by revenue

Free Cash Flow is defined as cash used in operating activities, less cash used for additions to property and equipment.

Pro Forma Free Cash Flow is defined as Free Cash Flow adjusted to give effect to the Hospitality Solutions Sale.

Adjusted EPS is defined as Adjusted Net Income (loss) divided by diluted weighted-average common shares outstanding.

Purpose and Use by Management

Management and the board of directors use these non-GAAP financial measures to evaluate trends in our operating performance, assess period-to-period comparability, and support internal planning and decision-making. These measures are particularly useful in evaluating operating performance because historical results have been affected by items that

management believes are not indicative of ongoing core operations. In addition, amounts derived from Adjusted EBITDA are used in connection with certain financial covenants under our senior secured credit facilities.

These non-GAAP financial measures should not be considered measures of liquidity, nor do they represent cash available for discretionary use. Free Cash Flow does not represent residual cash available for distribution and does not reflect all cash requirements of the business. Other companies, including those within our industry, may define or calculate similarly titled non-GAAP financial measures differently, limiting the usefulness of such measures as comparative tools.

Limitations of Non-GAAP Financial Measures

Adjusted Net Income (Loss), Adjusted EBITDA, Normalized Adjusted EBITDA, Adjusted EPS, Free Cash Flow, and related ratios are not recognized measures under GAAP and have inherent limitations as analytical tools. Accordingly, they should not be considered in isolation or as substitutes for net (loss) income , (loss) income from continuing operations, or cash flows from operating activities prepared in accordance with GAAP.

The limitations of these non-GAAP financial measures include, but are not limited to, the following:

- They exclude certain expenses that are recurring in nature, including stock-based compensation and amortization of acquired intangible assets.
- Although depreciation and amortization are non-cash expenses, the assets being depreciated and amortized may require replacement in the future, and Adjusted EBITDA does not reflect the capital expenditures required for these replacements.
- Adjusted EBITDA excludes amortization of capitalized implementation costs related to revenue contracts, which may result in future working capital or cash requirements.
- Adjusted Net Income (Loss) and Adjusted EBITDA do not reflect changes in, or cash requirements associated with, working capital.
- Adjusted EBITDA does not reflect interest expense, principal repayments, or other cash requirements necessary to service our indebtedness.
- Adjusted EBITDA does not reflect income tax payments that could reduce cash available to us.
- Free Cash Flow reflects changes in operating assets and liabilities determined under accrual accounting and does not reflect all cash requirements, including mandatory debt service obligations.

- Other companies, including those within our industry, may define or calculate similarly titled non-GAAP financial measures differently, limiting the usefulness of such measures as comparative tools.

Non-GAAP Pro Forma Outlook

The non-GAAP pro forma financial outlook in this press release, including Pro Forma Adjusted EBITDA and Pro Forma Free Cash Flow is not necessarily indicative of the operating results of the Company after the closing of the Hospitality Solutions Sale and utilization of the net proceeds from the sale to pay down outstanding indebtedness, or of the operating results of the Company in the future. The non-GAAP pro forma financial outlook included in this press release is not pro forma information prepared in accordance with Article 11 of Regulation S-X of the SEC, and the preparation of information in accordance with Article 11 would result in a different presentation.

Investor Considerations

Investors are encouraged to review the reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures and to evaluate our operating performance, financial position, and liquidity using GAAP measures in conjunction with, and not in lieu of, these non-GAAP financial measures.
